**Subject:** Airplane Noise

To the City Council:

I have lived in Cambridge for more than 50 years and have owned property in the North Commons/Avon Hill area for 19 years. When I moved there in 1996, I chose the neighborhood because it was a quiet. However, I can no longer say that it is the case. Due to the changes to flight paths when there is a NW wind, when all planes depart from Logan on Runway 33L, the noise from the planes is deafening, starting as early at 5:30 A.M. and continuing as late as 12:45 A.M. The noise is deafening and due to the vibration and low frequency, cannot be blocked out with ear plugs. I feel that it impacts negatively one one's quality of life and health and may impact property value.

Sincerely,

Barbara J. Goodchild
